"We offer cost-effective strategies to resolve risks associated with environmental and health and safety hazards."

Axiom Partners, Inc.

is an environmental consulting, industrial hygiene, and professional engineering firm specializing in the assessment of environmental hazards, remediation design and construction management services. We offer cost-effective strategies to resolve risks associated with environmental and health and safety hazards. We provide our expertise to a variety of clients who are engaged in the acquisition, improvement, and operation of real property. Our services also include assessments of occupational exposure to workers in the work place.

Our clients

include property owners, private and public property management companies, real estate developers, hospitals, federal, state and local government, schools, universities, financial institutions, construction companies and manufacturing industries. We are registered as a privately held corporation in the Commonwealth of Massachusetts, with offices in Plymouth, Massachusetts and Derry, New Hampshire.

AXIOM has over
50 Years of Experience
 collectively in the environmental
 consulting field.

We specialize in turnkey
 environmental and industrial
 hygiene services.

Complete performance bonding
 and full comprehensive liability
 insurance as well as professional
 liability insurance.
